## Documentary Requirements for LEED-Related Projects

MAPEI presents the following LEED certification letters to meet your LEED-related, documentary requirements for submissions of MAPEI products or for obtaining approval of MAPEI's specific LEED-related operations. For any additional information, please contact your local sales representative or our Technical Services department at 1-800-992-6273.

The U.S. Green Building Council requires BOTH (1) compliance information for products used; and, (2) a statement of the manufacturer's locations and efforts to conserve the environment through their operational actions. MAPEI has had a long-standing relationship between our customers and their efforts of achieving LEED points with the use of MAPEI products. The attached letters are supplied to further assist you and minimize your efforts in gathering documentation for LEED-related projects.

Please present the following two certification letters along with each product's Material Safety Data Sheet (MSDS) for all LEED-related projects on which you are bidding or for which your end customer is seeking LEED certification after installations are complete.

Ref: Certification Letter for VOC Compliance of MAPEI Products to LEED's Indoor Environmental Quality Category of Points

Dear Valued Customer,

I, Donald House, of MAPEI Corporation, declare and certify that all of the products listed in the attached annex titled "MAPEI's LEED® Qualified Products" comply with Rule 1168 of California's South Coast Air Quality Management District's Volatile Organic Compounds (VOC) limits, which are the mandatory requirements set by U.S. Green Building Council's LEED® program's Indoor Environmental Quality category.

Individual product VOC contents are listed within each product Material Safety Data Sheet (MSDS), which can be obtained from MAPEI's website at [www.mapei.com](http://www.mapei.com) or by contacting your local MAPEI sales representative or MAPEI's Technical Services department at 1-800-992-6273. The individual product MSDSs with each product's VOC contents are attached and certified as being valid and true when accompanying this letter.

BioBlock™ technology has been added to premium MAPEI products to provide an additional line of product defense by inhibiting the growth of various types of odor- and stain-causing mold, mildew and bacteria. The Carpet and Rug Institute (CRI) certified MAPEI's carpet adhesives as "Green Label" adhesives after testing and confirmed them to be low VOC floor-covering adhesives.

MAPEI prides itself in leading the industry in the research and development of over 100 sustainable products.

Very truly yours,

A handwritten signature in black ink that reads "Donald House".

Donald House,  
Manager of Regulatory Affairs  
MAPEI – Headquarters of the Americas

## MAPEI's LEED® Qualified Products

 – Denotes products containing MAPEI's BioBlock™ technology. BioBlock technology has been added to select MAPEI products to help inhibit the growth of various types of odor- and stain-causing mold, mildew and bacteria. BioBlock technology provides built-in antimicrobial protection without expensive additives, extra steps or added time. For the most current information on BioBlock technology, visit [www.mapei.com](http://www.mapei.com)

The following is a list of MAPEI's most common LEED-qualified products. For information regarding products not listed, please contact MAPEI's Technical Services department at 1-800-992-6273.

### Floor Covering Adhesives

#### Universal Flooring Adhesives

Ultrabond ECO® 350   
Ultrabond ECO 300   
Ultrabond® G21

#### Multipurpose Flooring Adhesives

Ultrabond ECO 200   
Ultrabond ECO 800   
Ultrabond ECO 150  
Ultrabond ECO 100  
Ultrabond ECO 85  
Ultrabond ECO 90

#### Carpet Adhesives

Ultrabond ECO 220   
Ultrabond ECO 185   
Ultrabond® Mach™ 6   
Ultrabond Mach 4  
Ultrabond Mach 2

#### Carpet Accessory Adhesives

Ultrabond ECO 840  
Ultrabond ECO 8200

#### Outdoor Carpet Adhesive

Ultrabond ECO 420 

#### VCT Adhesives

Ultrabond ECO 711   
Ultrabond ECO 710   
Ultrabond ECO 600

#### Vinyl Sheet-Goods Adhesives

Ultrabond ECO 290   
Ultrabond ECO 160 

#### Wall-Base Adhesive

Ultrabond ECO 575 

#### Linoleum Adhesive

Ultrabond ECO 540 

#### Wood Flooring Adhesives

Ultrabond 990  
Ultrabond 980  
Ultrabond ECO 972 

### Surface Preparation

#### Patching and Skim-Coating

Planipatch®  
Planipatch Plus™  
Ultra SkimCoat™  
Planitop® X  
CP2™  
LL2™  
Planitex™ UNS

#### Self-Leveling Underlayments and Primers

Ultraplan® M20  
Ultraplan 1  
Novoplan® 2  
Novoplan 6  
Planibond™ EBA  
Primer WE™  
Primer L™  
Mapecem® Premix  
Planicrete® AC

#### Mud Bed and Repair Systems

Mapecem  
Mapecem Premix

#### Membrane Systems and Waterproofing

Mapelastic™ 315  
Mapelastic M19  
Mapelastic SM  
Mapelastic SM Primer  
Mapelastic  
Mapelastic Smart  
Planiseal™ MRB  
Mapelastic HPG   
Planiseal 88  
Planiseal Plug

### Tile and Stone Installation Systems

#### Flexible Mortars

Kerabond™  
Keralastic™  
Granirapid®

#### Full-Contact Mortars

Ultracontact™ RS  
Ultracontact

#### Polymer-Modified Mortars

Ultralite Mortar™   
Ultraflex RS  
Ultraflex™ 3  
Ultraflex 2  
Ultraflex 1  
Ker™ 121

#### Dry-Set Mortars

Kerabond  
Keraset®  
Keraflor™

#### Dry-Set Mortar Latex Additives

Keralastic  
Keraply™

#### Other Mortar Products

Keracrete™  
Glass-Block Mortar

#### Specialty Grouts

Kerapoxy  
Ultracolor®   
2.5 to 1™

#### Traditional Portland-Cement

Grouts  
Keracolor™ S   
Keracolor U 

#### Caulks

Keracaulk™ S   
Keracaulk U 

#### Mastic

Ultramastic ECO™

### Concrete Restoration Systems

#### Primers and Epoxies

Primer L  
Primer WE  
Planibond EBA

#### Toppings and Underlayments

Ultratop®  
Ultraplan M20  
Ultraplan 1  
Novoplan 2  
Novoplan 6  
Concrete Renew™

#### Decorative Flooring

MAPEI Spraytop™ RS  
MAPEI Spraytop WC

#### Screeads

Mapecem Quickpatch  
Planicrete PM  
Mapecem  
Mapecem 100  
Mapecem 101  
Mapecem 102  
Mapecem 202

#### Repair Mortars

Planitop X  
Planitop 12  
Planitop 15  
Planitop 16  
Planitop 18  
Planitop 21  
Planitop 23  
Planitop 25

#### Grouts

Planigrout® 740  
Planigrout 750  
Planigrout 755

Ref: Certification Letter of MAPEI Compliance to LEED's Materials and Resources Category of Points

Dear Valued Customer,

MAPEI's manufacturing plants listed below utilize approximately 4 to 10% by weight of post-industrial (pre-consumer) recycled materials within our products and manufacturing process. Additionally, approximately 20 to 80% of the raw materials utilized in production are manufactured regionally within 500 miles each of MAPEI's below listed manufacturing facilities.

MAPEI has historically streamlined its operational necessities to minimize any wastage of materials, therefore, maximizing our true abilities to recycle and reuse the post-industrial materials. Additionally, MAPEI's facilities strictly adhere to all "green space" regulatory requirements with our landscaping and property area design and management.

MAPEI has a long-standing commitment to utilize recycled materials while meeting the needs of our valued customers and sustaining the environment we all live in.

Very truly yours,

Donald House,  
Manager of Regulatory Affairs
